

NEVE

Specification Guide

The Neve sofa range is the perfect addition to any modern office workspace. This configurable sofa range offers one, two, and three seat options, giving you the flexibility to create the perfect seating solution for your space. The sofa can also be specified with or without arms, allowing you to customise it to suit your needs. The Neve sofa is available in a wide range of fabric finishes, so you can choose the perfect colour and texture to match your office décor.

In addition to the customisable seating options, the Neve seating collection showcases a solid timber frame, with a metal base structure on which soft, domestic-inspired cushions are placed for comfort. The webbing suspension system offers an additional level of comfort to create an inviting seating solution that can be specified in a variety of colour finishes. Plus, with our online configurator, you can easily design your Neve sofa to your exact specifications, making the ordering process simple and efficient.

Created as a Design for Disassembly product, Neve has sustainability at the core of its inception. Neve is a truly circular design, allowing the product to be dismantled for re-use, refurbishment or relocation, through a well-engineered build structure and material application.
